SERING THE ELEPHANT

The President and His Party Pay a Visit to Chinatown.

[S. F. Call. 14th] President and Mrs. Hayes, Burchard and Rutherford B. Hayes, after being photographed, crossed the ferry to Oak; land about ten o'clock yesterday fore-noon. They were driven to the "Glen Echo," Jonathan Hunt's country residence, near Mountain View Cemetery. and for several hours remained there. After lanching, the party were driven to

Piedmont Springs and other points of interest about the city. Intent upon seeing the San Francisco elephant, the Presidential party last night concluded to do Chinatown. The party was made up of the following ladies and gentlemen: President Hayes, General Sherman, Secretary Ramsay, Burchard Hayes, R. P. Hammond, William Alvord, R. J. Tobin, Mr. and Mrs. Herron, Mrs. Sherman, Child of Chi Mrs. Herron, Miss Sherman, Chief of Police Crowley, and Hack Inspector Martin. Shortly after eight o'clock the sight-seers entered carriages and departed on the tour of inspection. The Chinese Grand Theatre, on Washington, above Dupont, was first visited. Presidential party passed up the stairs to the boxes upon the left of the stage. A special play was put on in honor the distinguished visitor. As the President entered his box, a buzz 'of excitement was apparent in the pit below which soon quieted as the Celestials be came absorbed in the play. To the Chinese mind august personages require to be honored with religious plays, therefore an extra specimen of the celes tial drama was put on. The orchestra, under the direction of Slam Bang, ren dered several choice symphonies in their Full Weights! usual impressive style. A cage of cooped up female leveliness in the gallery opposite proved a great attrac-tion to both ladies and gentlemen of the party. The play seemed to the foreign devils, to consist mainly of long-winded cat-calls executed by a magnificent individual, clad in a Joseph's coat of many

colors, with an inverted coffee pot on

his Lead, alternating with a curious sort of religious walk around. A religious tumbling match was indulged in by several ferocious highbunders. After sub-mitting to the judiction with more or less patience for an hour, the company resumed its inspection of the city's can cer. The ladies with their escort, left the party, and under guard of a dozen police visited a joss house and restau cant-then returning to the hotel. The reached gentlemen of the party, under the guidance of Corporal Avan, dove down Bartlett alley, and turned into an opium den, where some dozen or more of the Moon-eyed Heathens were enjoying the opium-smokers' Elysium Disgusting as the sight was, it was nothing com-pared to the foul dens known to exist in the quarter. The party next turned into Pacific street, and proceeded to Cum-Cook alley, where a high-toned visitors were ted into a foul alley, where no lights warned pedestrians of the dangerous cellars and openings in the ground on every hand. The doors and one not knowing the neighborhood would have supposed the help to be deserted. Turning sharply to the right, down a filthy and rickety staircase, Avan led the way into a horrible underground labyrinth, where non-ome odors assailed the nostrifs. The passage was tortuous and so low that the taller of the party were forced to bend low. At the end of the rat-hole a heavily constructed door was knocked at and admittance gained. As the door swang on its mages, the horrors of underground Chiantown opened to the vision of the astomshed visitors. The stench arising from the sloppy floor was sickening to the unmittated. The walls exuded purrifying water, which trickelled down upon the floor in little pools: Here . n

Resolutions Adopted by the Republican State Convention:

Resolutions State Convention:

Resolut. That the platform of principles adopted by the National Republican Convention at Chicago in June deserves and receives the approval and hearly endouranted of All Hapublicans of Revada.

Resolut. That the horder of Chinese that are coming in upon our shores to est our substance are destroying our country, impoverishing our mines, miners and laborers, debauching our mines, miners and laborers, debauching our mines, miners and laborers, debauching our joint and making both men and women lower in the scale of humanity. This will must and shall be stopped, and to this end we pledge the chil e strength of the Republican party. In the language of our great leader, we regard the miningration of asiatics to the United States. In little less than a servile invasion. Should the Commissioners now in negotiation with the Chinese Ot verament fail to secure by the first of ment January such a modification of the Burlingame Treaty as will practically put an end to the influx of Chinese to this country, we demand that the irraty then be promptly annulled, and such laws ensected as will releve us at once and forever of the Asiatic scourge now menseing the well being of the Republic. Resolved, That we most heartily indorse the general financial policy of the Bepulican parly, which, in spite of every opposition on the part of the Demorracy, has led-to the resumption of aperia payments, the raising of our hational credit to a height never before knows, and the restoration of National prosperity. But we also demand the complete restoration of silver onto this former position by the side of gold, and for the purpose of attaining that end we hold it to be the duty of the General Government, through the authorization of Congress, to onto interestoration in foreign markets. As mining for the pre- ions metals is the leading industry from the loss attending the subpment to, and sele of silver buillon in foreign markets. As mining for the pre- ions metals is the leading industry from the loss attendi eposits beyond vertical lines of surface bomb-aries, and we urge our representatives in both iouses of Courres to continue their efforts for accuses or congress to continue their efforts for its defeat. Such a restriction would wark dis-aster to the labors of the prospector and seri-ously retard the development of the migral riches of the West, and we confailly endure the action of our Representative, the Hon. R. M. Daggett, in this behalf. Resdeed, That the Republican party claims

MATIONAL REPUBLICAN PLATFORM.

PETER FOLLOWING IS THE PLATFORM

of the National Republican Party adopted by the Chicago Convention:

the Obicage Convention:

Republican rate has restored upon a solid basis rayment in coin for all the mational shipgations, and has given us a currency absolutely great and legal, and equal, in every part of our extended country. If has lifted the cradit of the mation from the point where six per cent, bonds sold at 86, to that where four per cent, bonds sold at 86, to that where four per cent, bonds are easy-ly cought at a premium. Under its administration relivers has recreased from \$10.00 mises in 1800 arises to 1800 to more than \$1,000 miles in 1879. Our foreign t ade has increased from \$710.00,000 to \$1,859,00,800 in the name time, and our exports, which were \$20,000 000 less than our imports in 1879. Without resorting to loans, it has, since the war cleect, delryed the ordinary expenses of Gevernment, besides the accurating interest on the public debt, and dishured annually more than \$20,000,000 of for soldiers' passion. It has paid \$600,000,000 of the public debt, and by refunding the balance allows from nearly \$181,000,000 to less that \$20,000,000. All the industries of the country have revived; shor is in demand; wages have increased, and throughout the antire country there is evidence of a coming prosperity greater than we have ever enjoyed Upon this record the itopublican party sale for the people, and this Convention submits for their approval the failus-ing statements of the principle and purpose which will continue to guide and inspire its efforts: Nevada State Agricultural, Min-

First—We after that the work of the last twenty-one years has been much as to commend itself to the favor of the nation, and that the fruits of the costsy victories which we have achieved through immense difficulties should be greenred. That the peace regained should be cherished. That the dissevered Union, now happity restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future greenrations. That the order established and the credit acquired should hever be imperited. That the pensions promised should be paid. That the dist no much reduced should be extangulated by the full payment of overy dollar thereof. That the reviving industries should be further promoted, and that the commerce airedy so great should be stadily encouraged. THE MEPUBLICAN POLICY.

A MATION, NOT A CONFEDERACY. Second—The Constitution of the United States is the supreme law, and not a mere contract. Out of the confederated States it made a severely mation. Some powers are denied to the nation, while others are retained by the States; but the boundary between the powers delegated and those reserved is to be determined by Sational and not by State tribunals.

POPULAR EDUCATION. Third.—The work of popular education is one left to the care of the several Rares, but it is the duty of the National Government to aid that work to the extent of its constitutional ability. The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the nation must be guided, not by the genius of any one fitate, but by the average grains of a 1.

PROPOSED CONSTITUTIONAL AMENDMENT. PROFOGED CONSTITUTIONAL AMENDMENT.
From the Constitution wisely forbids Congress to make any law respecting an establishment of religion, but it is idle to hope that the nation can be protected against the influence of sectarianism, while each State is exposed to its particular domination. We therefore recommend that the Constitution be so amended as to lay some prohibitions upon the legislature of each State, and to forbid the appropriation of the public funds to the support of sectarian schools.

Call oreis, and Grant and Lake counties, tregon; three in fre; purse \$250; first horse \$200, second horse

DUTIES OF THE DAY.

Fifth—We reaffirm the belief avowed in 1876, that the duties levied for the purpose of revenues should so discriminate as to favor American labor. That no further grant of the public domain should be made to any railruad or other corporation. That slavery having perished in the States, its twin barbarity, polygamy, must die in the Territories. That everywhere the protection accorded to a citizen of American 1 irth must be accurated to distance. tection accorded to a citizen of American arran must be secured to ditzens by American adoption. That it is the duty of Congress to develop and improve our watercourses and harbors, but we insist that urther subsidies to private permanent of the property of the solid property of the so som or corporations must cease. That the obligations to the men who preserved its integrity in the day of battle are undiminished by the lapse of fifteen years since their final "ictory. Their perpetual knoor is and shull forever be the grateful privilege and the sacred duty of the

American people.
THE ORINESE PLANE. Such - Since the authority to regulate immigration and intercourse between the United states and foreign nationarests with the Congress of the United States and is treaty making powers, that the republican party, reperding the unrestricted immigration of Chinese as an evit of greak magnitude, invokes the exercise of the power to restrain and limit that immigration by the enactment of such just, humans and reasonable provisions as will produce that result.

COMMENDATION OF HATES. COMMENDATION OF HATES.
Seventh—That the purity and patriotism which characterizes the earlier career of Rotherford B isyes in peace and war, and which guided the thought of his immediate predecessor to him for a Presidential candidate, have continued to inspire him in his career as a hief Executive, and that history will accord to his administration the honors which are due to an efficient, just and course outsfulfilment of the public business, and will honor his interposition between the people and proposed partism laws.

Commendation of Rayes.

Second—That the purity and patriotism which cheresterizes the earlier career in neutron in the control of the control Nominations in states must be made to the Secretary on or before the 11th day of dept., 1880. we are so prosperous, and thus bring destruction and confidence and hope.

Ariela—The equa. and steady, and complete entercoment of the laws, and the protection of all our citizens in the enjoyment of all privileges and immunity guaranteed by the Constitution, are the first duties of the nation.

The Ariela—The dangers of a "holid Mouth" can only be averted by a faithful performance of every promise which the nation has made to the ritigen. The execution of the laws, and the gualstreest of all those who violate them, are the culy safe methods by which an enduring peace can be secured and genuine prosperity or ablebed throughout the Bouth. Whatever promises the nation makes the nation must perform. A nation cannot with safety relagate this duty to the Sesen. The "Bodd Sends" must be divided by the phasorial services of the bailot, and all honest opinions must there find free expression. To this end the honest voter must be producted against terrorism, violence or fraud.

"Breenth—And we affirm it to be the duty and the purpose of the Republican party to me all legitimate means to restore all the fixture of this Union to the most perfect harmony which may be possible, and we submit to the practical, remains people of these Union the fixture of this Union to the most perfect harmony which may be possible, and we submit to the practical, remains people of these Union the honest outer must be remained to a party which seeks to everthrow the reteting princy under which we are as prosperous, and thus bring distrust and confusion where theirs princy under which we are ap prosperous, and thus bring distrust and confusion where theirs princy under which we are ap prosperous, and thus bring distrust and confusion where theirs princy under which we are ap prosperous, and thus bring distrust and confusion where theirs princy under the described by the base the constitutional rules governing apprintments to offee, adopts the declaration of respect for the constitutional rules governing apprintments to offee, adopts the decla above.
